INTEGRATED INDUSTRIAL SOLUTIONS CONSORTIUM

4 Specialized Companies.

One Unified Solution.

ABOUT THE CONSORTIUM

Who We Are: A unified team delivering end-to-end modernization—Lighting, IT Infrastructure, Automation, and ERP/CRM control—for manufacturing, chemical, and EPC plants. We bridge the gap between physical operations and digital management.

KEY CHALLENGES

Multiple Vendors

Disjointed communication and complex procurement cycles.

Deployment Delays

System integration gaps leading to operational downtime.

Accountability Issues

Inefficient handoffs between silos and lack of unified support.

OUR SOLUTION

Pre-Integrated Tech Stack

Four native experts functioning as one coordinated team.

Faster Deployment

Seamless execution with zero integration friction.

Single SLA Governance

End-to-end lifecycle support with one point of accountability.

**Individually Expert.
Collectively Powerful.**

GROUP COMPANIES

ERP, CRM & Business Automation

- Comprehensive CRM And ERP Business Platform
- Trusted By 1100+ Organizations Globally
- 55+ Modules For Complete Business Automation
- Integrated, Scalable, And Customizable Enterprise Solutions
- Data-Driven Insights For Smarter Business Decisions

Industrial Lighting Solutions

- Innovative LED And Solar Lighting Solutions
- Stadium, Construction, And High-Mast Lighting Expertise
- Energy-Efficient And Sustainable Lighting Technologies
- End-To-End Solar EPC Solutions And Services
- Durable, Cost-Effective, Eco-Friendly Lighting Systems

IT Infrastructure & Networking

- 30+ Years IT Infrastructure Expertise
- Authorized Partner For Leading Global IT Brands
- Hardware Supply: Desktops, Laptops, Servers, Peripherals
- Networking, Storage, And Enterprise IT Solutions
- Pan-India AMC And IT Support Services

Industrial Automation Systems

- Advanced Industrial Automation And Smart Factory Solutions
- PLC, HMI, SCADA, Robotics, IIoT Expertise
- Control Panel Design, Manufacturing, Commissioning Specialists
- Electrical Consultancy And Turnkey Automation Execution
- Driving Industrial Digital Transformation And Efficiency

INTEGRATED SOLUTION

1. LIGHTING INFRASTRUCTURE

- Industrial Lighting For Factories And Warehouses
- Stadium And Outdoor High-Mast Lighting Systems
- Construction Site Heavy-Duty Lighting Solutions
- Solar Lighting For Sustainable Energy Applications
- Solar EPC Design, Installation, Commissioning Services

2. IT & NETWORK BACKBONE

- End-To-End IT Infrastructure Setup And Deployment
- Networking Solutions With Secure Connectivity Systems
- Supply Of Enterprise Hardware And Peripherals
- AMC Services For Reliable IT Maintenance
- Data Storage, Backup, And Continuity Solutions

3. INDUSTRIAL AUTOMATION

- Industrial Automation Using PLC, HMI, SCADA
- Robotics Integration For Smart Manufacturing Processes
- Control Panel Engineering And System Commissioning
- Industry 4.0 IIoT-Based Smart Factory Solutions
- Electrical Consultancy For Turnkey Industrial Projects

4. ERP & CRM CONTROL

- CRM Automation For Leads And Sales Pipeline
- ERP Solutions For Finance And Operations
- Customized Software Development For Business Workflows
- Integration With SAP, Microsoft, Third-Party Applications
- Business Analytics Dashboards, Forecasting, Insights

Single Coordinator

Pre-Integrated Stack

Unified SLA

Faster Deployment

VALUE PROPOSITION

Why Choose Us

Single Coordinator & Governance

One point of contact managing all four specialized teams, eliminating multi-vendor chaos.

Pre-Integrated Tech Stack

Lighting, IT, Automation, and ERP systems designed from day one to communicate flawlessly.

Faster Deployment

Parallel execution reduces handoff delays, accelerating your facility's time-to-market.

Industrial-Grade Reliability

Robust components tested for harsh manufacturing, chemical, and EPC environments.

Complete Lifecycle Support

End-to-end partnership from initial design to deployment, AMC, and future upgrades.

MINI USE CASE: Greenfield Plant Expansion

The Consortium delivered lighting, IT backbone, automation panels, and ERP go-live under one unified PMO for a major chemical facility. This approach cut coordination complexity by 60% and enabled full production visibility on day one.

**"COMPLETE INDUSTRIAL ECOSYSTEM UNDER
ONE COORDINATED NETWORK."**
